

# Uroš Nešić

## Front-end developer

## About me

Software engineer specializing in full-stack web development with primary focus on the front-end technologies. Fueled by undoubtedly weird sense of humor and lots of coffee (mostly the latter), I spend most of my waking hours looking for interesting project ideas and ways to leave my mark on the ethereal thing that is the Internet.

## Technologies

## Experience

### Frontend Developer @ [Neopix](#)

February, 2022 – Present

\$ Coming soon...

### WordPress Developer @ [BlueGrid](#)

February, 2020 – January, 2022 (2 years)

- \$ Custom theme, templates and post types development for a highly trafficked website
- \$ Converting Figma designs to fully responsive, functional and interactive website pages
- \$ SEO and performance optimization using various caching and lazy-loading techniques
- \$ Custom solutions development using React along with TypeScript and 3rd party APIs
- \$ Production of clean, easily-maintainable and scalable JavaScript, CSS and php code

### WordPress Developer @ [lvapix](#)
