

Uroš Nešić

Front-end developer

About me

Software engineer specializing in full-stack web development with primary focus on the front-end technologies. Fueled by undoubtedly weird sense of humor and lots of coffee (mostly the latter), I spend most of my waking hours looking for interesting project ideas and ways to leave my mark on the ethereal thing that is the Internet.

Technologies

Experience

Frontend Developer @ [Neopix](#)

February, 2022 - Present

> Coming soon...
